INTRODUCTION

International ICW Construction Week

OFFICIAL TRADE EXHIBITION
BUILDXPO MALAYSIA

CO-LOCATED
GLASSTECH ASIA
FENESTRATION ASIA

The International Construction Week (ICW) is the premier annual event for the construction industry in Malaysia and Southeast Asia. Hosted by the Construction Industry Development Board (CIDB) Malaysia since 1999. In 2025, ICW marked a significant milestone with its inaugural edition in East Malaysia, known as **ICW Borneo**, serving as a strategic platform connecting East Malaysia with West Malaysia and international construction markets.

BuildXpo Malaysia, organised by Qube Integrated Malaysia Sdn. Bhd., is the official trade exhibition of ICW, and served as a pivotal hub for industry leaders, innovators, and professionals across Malaysia and the region since its launch in 2023. It has recorded steady growth in trade value, exhibitor participation, and visitor turnout over the past three editions.

With strong synergy among national and international industry stakeholders, both ICW and BuildXpo Malaysia have grown significantly, driven by robust construction demand in Malaysia and across ASEAN.

ICW and BuildXpo Malaysia 2026 drive the industry to break boundaries through innovation, collaboration, and digitalisation. Anchored by the theme **'Beyond Limits'**, the event sets the stage for new technologies, smarter infrastructure and technical knowledge exchange that are transforming the built environment and driving a resilient and sustainable future.

BEYOND LIMITS

LEAD LINES

When we launched ICW & BuildXpo Malaysia 2026 earlier this year, we set out an ambition for the industry to go 'Beyond Limits' – to move beyond conventional approaches, embrace innovation and strengthen collaboration.

But transformation cannot happen through policy or technology alone. It requires people who are willing to learn, organisations that are prepared to adapt, and an industry that is willing to share knowledge and collaborate across traditional boundaries. This is where ICW & BuildXpo Malaysia has an important role to play. It provides a platform where the industry's aspirations, ideas, technologies and capabilities can come together and where we can move beyond discussing transformation to explore how it can be implemented in practice.

Sr Ahmad Farrin Mokhtar
Chief Executive, CIDB Malaysia

BuildXpo Malaysia has always been about connecting businesses with technologies, products and solutions. But this year, we are putting even greater emphasis on the experience of learning, discovering and engaging to make every visit to ICW & BuildXpo Malaysia more purposeful and valuable. We are also bringing together a strong mix of conferences and seminars covering different dimensions of the construction industry, demonstrating how ICW is no longer simply about what is being built today; it is increasingly about how we will build tomorrow – the technologies we adopt, the skills we develop, the ideas we exchange, and the partnerships we create.

Ultimately, the success of ICW & BuildXpo Malaysia should not be measured only in numbers. It should be measured by the connections made, the technologies discovered, the knowledge exchanged, the partnerships formed and, most importantly, the progress that follows after everyone leaves MITEC.

Mr. Richard Teo
Executive Chairman,
Qube Integrated Malaysia Sdn. Bhd.
